BPR No.	UK-2019-1192-1-3
Active Ingredient(s)	Transfluthrin (3.57%)
Shelf Life	24 months

## Application Information

### Preparation

When you are experiencing a moth infestation **NOPE!® Moth Killer** is an important part of a control strategy. Before using **NOPE!® Moth Killer** booklets it is advisable to take the following steps.

- Where possible wash the clothes and/or soft furnishings to eliminate larvae and eggs present. If it is not possible to wash the soft furnishings, then shake them off to dislodge larvae and eggs.
- Vacuum in the area around the affected clothes and/or soft furnishings to remove any dislodged larvae or eggs.

In addition to using **NOPE!® Moth Killer** the following actions are also recommended.

- Don't over fill wardrobes. An emptier wardrobe makes the signs of infestation easier to spot.
- Regular vacuuming around soft furnishing and cleaning of draws and wardrobes.
- Use Nope!® CP Clothes Moth Killer spray as a knockdown treatment.

## Application

Read the label before treatment.

Use one booklet or three double sheets for every 0.5 m<sup>3</sup> of cupboard space.

**NOPE!® Moth Killer** booklets can be used in booklet form or as individual sheets ripped out of the booklet.

When using individual sheets, tear the required number of sheets out of the booklet. Place them in contained areas such as cupboards, drawers and wardrobes where clothes are stored.

Alternatively use the hole in the booklet cover sheet to hang the entire booklet over a clothes hanger.

Replace booklets every 3 months.

## Other Information

Store in the original container tightly closed. Store in a cool, dry, well-ventilated place. It is recommended to keep the product at a temperature between 5°C and 45°C.

Store in a safe place. Keep away from food, drink and animal feedstuffs. Keep out of reach of children and animals. Avoid release to the environment. Dispose of contents/container in accordance with local regulations.
