

# Roxil® Beeswax Wood Polish

## Product Description

**Roxil® Beeswax Wood Polish** is a blend of natural and synthetic waxes to rejuvenate and protect modern and antique wood such as furniture, skirting boards and woodenware.

## Benefits

- Enhances the grain and natural colour of wood
- Imparts a gloss finish
- Subtle floral fragrance
- Seals and protects surface from moisture
- Suitable for treating all types of unsealed indoor soft and hard woods
- Removes minor scuffs and scratches

## Properties

Appearance	Soft yellow wax
Density	0.8 g/cm <sup>3</sup>
Size(s) & Packaging	300 g
Coverage	1 m <sup>2</sup> per 10 – 20 ml (single coat)
Storage	Store in a cool dry place. Protect from frost

## Application Information

**Roxil® Beeswax Wood Polish** is recommended for use on all planed and finished soft and hard woods. For best results, the timber must be clean and free from thick coatings. Carry out a test area to check aesthetic suitability.

## Application

**Roxil® Beeswax Wood Polish** should be applied with a lint-free cloth. Transfer small amounts of **Roxil® Beeswax Wood Polish** to the cloth and work into the wood in small circular movements. Ensure each area is fully covered with wax before moving on. Allow to dry for 30 minutes then buff with a microfibre cloth, in the direction of the grain, for a uniform finish and maximum gloss.

For increased gloss and protection, repeat the above procedure until the desired finish is achieved.

## Maintenance

Periodic maintenance is required to maintain a high sheen surface. Spot maintenance may be needed in areas of high use or following a heavy spill.

## Other Information

Keep out of reach of children and animals. Unprotected persons and animals should be kept away from treated surfaces until dry. For full health and safety information consult the Safety Datasheet (available on request). Always read the label.

**Roxil® Beeswax Wood Polish** is produced in accordance with ISO 9001 quality and environmental management systems. **Roxil® Beeswax Wood Polish** is non-hazardous to the environment.
