

# SoluGuard Woodworm & Rot Treatment (BPR)

## Product Description

For the treatment of woodworm and as part of a dry rot or wet rot control strategy. **SoluGuard Woodworm & Rot Treatment (BPR)** can be applied to timber by brush or coarse spray.

## Benefits

- Dual purpose formulation
- Solvent-free
- Extremely stable once mixed
- Targets all life-cycle stages

## Properties

Appearance	Pale yellow liquid	
Recipe Type	Water-based	
Density	1.0 g/cm <sup>3</sup>	
Size(s) & Packaging	5 litre jerry cans	
Coverage	Preventative	1 litre covers 5 m <sup>2</sup> . A 5 litre pack covers 25 m <sup>2</sup>
	Curative	1 litre covers 3.3 m <sup>2</sup> . A 5 litre pack covers 16.5 m <sup>2</sup>
Storage	Store above 5°C in dry conditions in original closed box. Store in a safe place, keep out of reach of children. Keep away from food, drink and animal feedstuffs	
Shelf Life	24 months	
Active Ingredient(s)	Permethrin, Propiconazole, IPBC	
Effective Against	Wood-boring beetles and for use as part of a dry rot or wet rot control strategy.	
HSE Number	10139	
Re-entry Time	At least 1 hour after treatment is completed	

## Application Information

### Preparation

Any paint, varnish, dirt or other surface coating should be removed before application. Wood should be clean and free from dust and other contaminants. Timber to be treated should be reasonably dry before treatment although the product will penetrate into damp timbers.

### Application

**Preventative:** Apply by brush or coarse low pressure spray onto timber at a rate of 5 m<sup>2</sup> per litre or to refusal. Apply in 2 - 3 coats depending on wood species and surface characteristics.

**Curative:** Apply by brush or coarse low pressure spray onto timber at a rate of 3.3 m<sup>2</sup> per litre or to refusal. Apply in 2 - 3 coats depending on wood species and surface characteristics.

After application tools should be cleaned immediately with warm, soapy water.

### Outdoor Application Only:

Product requires an overcoat and should be suitable for over coating 24 hours after application depending on wood and ambient conditions.

## Other Information

**SoluGuard Woodworm & Rot Treatment (BPR)** has been authorised for use class 1, use class 2 and use class 3.

**Use class 1:** situation in which the wood or wood based product is inside a construction, not exposed to the weather and wetting.

**Use class 2:** situation in which the wood or wood-based product is under cover and not exposed to the weather (particularly rain and driven rain) but where occasional, but not persistent, wetting can occur.

**Use class 3 (Must be overcoated):** situation in which the wood or wood-based product is above ground and exposed to the weather (particularly rain).

**SoluGuard Woodworm & Rot Treatment (BPR)** is touch dry in 1 hour depending on wood and ambient conditions. Unprotected persons and animals should be kept away from treated surfaces for 48 hours or until dry. Low temperatures, increased humidity and ingredients of some wood types may increase drying time. Product should be suitable for over coating 24 hours after application depending on wood and ambient conditions.

This material and its container must be disposed of in a safe way (Hazard waste key: 020108) . Do not empty into drains. Do not contaminate ground, waterbodies or watercourses with chemicals or used container.

Certified	Organism	Use	Rate
BS EN 46	House Longhorn Beetle ( <i>Hylotrupes bajulus</i> )	Preventative	100 ml/m <sup>2</sup>
BS EN 118	Termites ( <i>Reticulitermes flavipes</i> )	Preventative	200 ml/m <sup>2</sup>
BS EN 113	White & Brown Rot ( <i>Wood destroying basidiomycetes</i> )	Preventative	100 ml/m <sup>2</sup>
BS EN 152	Blue Stain	Preventative	200 ml/m <sup>2</sup>
BS EN 370	Common Furniture Beetle ( <i>Anobium punctatum</i> )	Curative	300 ml/m <sup>2</sup>
BS EN 1390	House Longhorn Beetle ( <i>Hylotrupes bajulus</i> )	Curative	300 ml/m <sup>2</sup>
