| Preventive | 1 litre covers 5 m².  
A 5 litre pack covers 25 m² |
| Curative | 1 litre covers 3.3 m².  
A 5 litre pack covers 16.5 m² |

Storage

Store above 5°C in dry conditions in original closed box. Store in a safe place, keep out of reach of children. Keep away from food, drink and animal feedstuffs

Shelf Life

24 months

Active Ingredient(s)

Permethrin (0.25% w/w)

Effective Against

Wood-boring beetles

BPR Authorisation No.

UK-2019-1171-1-0008

Re-entry Time

Until touch dry – at least 1 hour after treatment is completed

Application Information

Preparation

Any paint, varnish, dirt or other surface coating should be removed before application. Wood should be clean and free from dust and other contaminants. Timber to be treated should be reasonably dry before treatment although the product will penetrate into damp timbers.

Application

**Preventive:** Apply by brush or coarse low pressure spray onto timber at a rate of 5 m² per litre or to refusal. Apply in 2 – 3 coats depending on wood species and surface characteristics.

**Curative:** Apply by brush or coarse low pressure spray onto timber at a rate of 3.3 m² per litre or to refusal. Apply in 2 – 3 coats depending on wood species and surface characteristics.

After application tools should be cleaned immediately with warm, soapy water.

Other Information

*SoluGuard® Woodworm Treatment* is authorised for use against attack by wood boring insects and prevent re-infestation in use classes 1 and 2.

**Use class 1:** situation in which the wood or wood based product is inside a construction, not exposed to the weather and wetting.

**Use class 2:** situation in which the wood or wood-based product is under cover and not exposed to the weather (particularly rain and driven rain) but where occasional, but not persistent, wetting can occur.
SoluGuard® Woodworm Treatment is touch dry in 1 hour depending on wood and ambient conditions. Unprotected persons and animals should be kept away from treated surfaces until dry. Low temperatures, increased humidity and ingredients of some wood types may increase drying time. Product should be suitable for over coating 24 hours after application depending on wood and ambient conditions.

This material and its container must be disposed of in a safe way (Hazard waste key: 020108). Do not empty into drains. Do not contaminate ground, waterbodies or watercourses with chemicals or used container.
